Sickle cell ulceration

A masterclass with Fran Worboys

This  
programme  
can count for  
up to **4 hours**  
of participatory  
learning for  
revalidation

# About your masterclass

At Accelerate, education matters to us – a lot. It is an important part of our work. It enables transformations in local services, improved healing rates and patient experience.

The effective assessment and management of lower limb wounds requires skills, knowledge and understanding. We firmly believe in the importance of education and the sharing of expertise and experience.

In this live virtual master class Fran Worboys, Accelerate Academy's Clinical Nurse Consultant will draw upon more than 40 years of clinical nursing experience to explore the unique challenges that are presented when managing wounds for patients diagnosed with sickle cell.

We believe that sharing our unique insights into the complexities of treating patients with sickle cell ulceration, such as pain management and bespoke compression, will make for an excellent day for those who work with these patients and those who wish to learn more about this condition.

Fran regularly presents her work at conferences and events in the wound management arena and is recognised as an innovator and leader in her field.

## Course content

- An overview of the pathophysiology and diagnosis of sickle cell ulceration
- The complexities of the underlying pathophysiology and how this may lead to ulceration
- The unique presentation of this type of ulceration
- Why multi-disciplinary working is key for this population of patients, with a particular focus on the challenges of gait and biomechanics within the context of sickle cell ulceration
- Case studies on how Accelerate bring a personalised approach to the clinical management of sickle cell ulceration

## Dates and times

09:30 - 13:30

Format	Dates
Virtual	1 <sup>st</sup> April 2025

## Location

Our virtual courses are run using Microsoft Teams

## Course fee

£99 + VAT (£118.80)

## To book

# About your masterclass

## How the course is run

Our virtual sessions are held using the MS Teams virtual learning environment (VLE) with informative webinars, discussion, Q & A and one to one sessions.

We have an Academy Moderator at Accelerate who can support you in digitally preparing for the course should you need assistance.

You will need to have access to a laptop, tablet or computer with video and sound capability so you can access the VLE effectively. You will also need peace and quiet.

We will be using the chat, break out and polling features of our VLE during the virtual courses to make the sessions interactive and we would ask you to participate as if in a face to face situation.
